Our selection includes Shirred Pleat and Box Pleat skirts. To determine the size you need, we recommend a standard skirt drop of 29 inches for a 30 inch high table. To determine the appropriate skirt length, measure the perimeter of the table and order the skirting by the running foot. We recommend one extra foot when ordering for three-side coverage skirts to allow for an extra 1/2 foot coverage around each side at the back for optimum appearance.

### 4 SIDE COVERAGE

To skirt all four sides of the table, simply measure and add up all four sides.

30"x72"	36"x72"	30"x96"	36"x96"
17 feet	18 feet	21 feet	22 feet

### 3 SIDE COVERAGE

To skirt three sides only, simply measure and add the front and the two sides and add one extra foot to allow for an extra 1/2 foot coverage around each side at the back for optimal appearance.

30"x72"	36"x72"	30"x96"	36"x96"
